## Packing Houses Begin Operations Here This Week

Early Salvage Produce Brings  
Good Market  
Prices

A steady but slow stream of early produce, including stream beans, radishes and corn bringing good prices at the packing houses, marked the season's opening here.

Pioneer Growers Cooperative which opened operations last Friday, reported the processing of about 602 baskets of Tendergreen beans which brought \$3.25 per Friday and \$4.25 per Monday. The volume of plantings ranged about 2,000 baskets with the price shifting between \$3.50 and \$4.25 a basket, according to a spokesman.

Seasoned loadings of salvage beans will continue for several weeks, he said.

Rain loaded 150 baskets of Plantiffs Sunday and 200 Monday and will continue having two or three times a week until about November 20 when produce planted after the storm should start steady.

Unity Farms in Pahokee has been loading small lots of Valencias, of fair quality bringing \$3.75 to \$3.85 on a few. The radish market is good paying about \$1.25 a basket, according to a Jacob Garber and Sons official. With a steady market outlook, loadings probably will continue even at about three to four a day. The house will not start early produce loadings until between December 15 and early and these loadings until the first of the year.

Duda and Sons started shipping their largest volume of sweet corn for this time of the year last week loading about 5,000 crates. Price on U. S. S. 2.50. The packing house official predicted that acreage and early loadings may begin the first of next week and celery loadings, December 1.

The American Fruit Growers will not start operations for about three or four weeks.

## JUNIOR RAMS TO PLAY IN THANKSGIVING EVENT

Belle Glade and Pahokee Junior high grid clubs matched with two leading teams in the Quarterback 100, probably Commission and Central, will be the leading attractions at a special Thanksgiving event at Anderson Field, West Palm Beach.

Sponsored by the Quarterbacks Club, the games are scheduled the evening of Nov. 22, according to Ed Hurley. If present standings continue, Belle Glade will face Central in the first game and Pahokee will meet Commission.

## LABOR CAMPS' ROADS GET TOPPING THIS WEEK

The Ruben Construction Co. started topping roads in Okeechobee and Pahokee Labor Camps with rock and slag this week, according to Emmett Roberts, director of the Belle Glade Housing Authority. The primary road work was put on the roads last week.

Resurfacing of all the camp roads should be completed in about three weeks, Roberts said. After this the company will begin work on the road shoulders.

## Shootin' Blanks By Pauls

There's nothing like a laugh to cheer the weary world; so Thursday I searched hard and long for just one chuckle provoker. First Emmett Roberts came in. He scratched his head, searched his mind and smoothed his hair, but the public speaking expert simply wasn't in the mood to summons up a good joke.

Shortly after Emmett's exit, George Young ambled in to write an ad, and I hit him with the same routine. "Tell me, what's funny?" He deposited a chuckle, settled his problem, and ordered the gag. About the only thing he came up with was a pun.

## METHODIST CHURCH TO OBSERVE BIBLE MONTH

The Community Methodist Church will join with thousands of churches throughout the world in observing a World-Wide Bible reading program scheduled from Thanksgiving to Christmas, according to the Rev. E. L. Holladay, pastor.

Millions of Bible readers speaking many different languages will use the same selected list of Scripture passages during this month period. President Truman annually heads the national committee of laymen who observe the movement.

Universal Bible Sunday has been set for December 9, Rev. Holladay said. Purpose of the drive promoted by the American Bible Society is to emphasize the primary importance of the Bible as a factor in the life of the nation and in the work of all churches.

Rev. Holladay said that he expects to distribute 300 of the reading lists.

Reverend said that he expects to distribute 300 of the reading lists.

Reverend said that he expects to distribute 300 of the reading lists.

Reverend said that he expects to distribute 300 of the reading lists.

## LABOR POPULATION Below Normal In Two Camps Here

Farm laborers are beginning to migrate back into the two labor camps here, Okeechobee and Pahokee, but the population is below that of last year at this time, according to Emmett Roberts, director of the Belle Glade Housing Authority.

Approximately 35 white families have moved into Okeechobee during the last two weeks, Roberts said, which include about 70 farm laborers.

Total capacity of the camp is 1,000 and usually by this time in the season it is filled. So far the occupancy is about 15 per cent.

Colored families returning to Okeechobee Camp have numbered about 46 during the last two weeks. This group has approximately 80 eligible farm workers.

The camp's capacity is 2,000 and at this point in the season, 1,500 are usually settled. To date the population is 30 per cent less than it was last year at this time.

Tom Lockett, one of the largest colored crew leaders, has been to the camp to arrive within a few days with about 50 workers, according to Roberts.

Recently the Authority officials, he received numerous inquiries about the crop situation here, immediate prospects for labor and housing facilities from laborers in other areas, Roberts reported.

FLAMES DESTROY  
COLORED HOME MON.

The fire department received a call from a woman in several months at 2:45 p. m. Monday. Flames completely demolished a one family colored home, located at 640 S. W. 6th St.

No fire hydrants are located near the structure. Firemen had to lay hose for such a distance that it was necessary to call another truck for the necessary length in order to reach the conflagration.

Cause of the fire was attributed to a faulty kerosene stove.

## C. Of C. Directors Told Airport Work To Begin Jan. 1

Directors Outline Program To  
Force Action On City  
Port And Dock

Construction work on the local airport improvement project will be financed by local, county and federal funds, should start by January 1, according to a report a C.A.A. Miami office spokesman given at the chamber of commerce directors meeting here Tuesday night.

Harold A. Wilde, district Airport Engineer, forecast a federal grant of \$150,000 for the program last May when matched by city and county funds. But the report Tuesday night said that the Belle Glade allotment was not included in the program set up November 1 is scheduled.

In that program \$1,000,000 was set aside for the Palm Beach International Airport. The airport was disqualified from the grant when it was taken over by the city and county, the report said. Money for the local airport will be derived from the city and county.

Following legal work which will be completed by the end of this month and the process of the airport scheduled to start about 30 days, construction will begin the first of the year.

With the exception of Lake Harbor, all precincts turned in heavy votes favoring the maintenance millage. There 24 residents cast votes, four in favor of the six mills and five seeking other millage. The two mill levy lost by a vote of 7 to 12.

Of the approximately 20,000 persons in the county eligible to vote in the election only about 5,500 cast ballots, Uphoff reported.

Center of interest was the proposed teachers' pay boost which is provided in the six-mills maintenance tax. The School Board has allocated three cents to the teachers' pay increase.

Henry O. Earwood, without opposition was elected school trustee for the section west of Twenty Mile Bend with 2,533 votes. Others elected were James Norcross, east of Twenty Mile Bend and south of Palm Beach Canal and Roy E. Michael, Jr., east of the Twenty Mile Bend and south of the Palm Beach Canal.

Write in votes were recorded for John W. Turrett, C. Y. Byrd, A. Curry and Tom Richards.

PTA HERE TO OBSERVE  
FATHER'S NIGHT MONDAY

Annual Father's night will be observed by the P.T.A. next Monday night at 8 o'clock in the high school auditorium.

Members approved the request of transfer from the Philadelphia, Pa. post to the local post of Hyman Harman.

James McMillan, former resident, was a visitor and reported on activities of his present post in Alabama.

Glades Episcopal Churches  
To Observe Armistice Day

Glades Episcopal Churches in Pahokee and Clewiston will observe Armistice Day Sunday with a sermon by the Rev. John Clarence Petrie, vicar of the parishes, on "Why Are We at War?"

Veterans groups and the public are invited to attend the services at 9 a. m. in Clewiston and at 11:15 a. m. in Pahokee.

A Glades delegation will attend the Women's Auxiliary meeting next week at the Holy Trinity Church, West Palm Beach.

Glades Episcopal Churches in Pahokee and Clewiston will observe Armistice Day Sunday with a sermon by the Rev. John Clarence Petrie, vicar of the parishes, on "Why Are We at War?"

Veterans groups and the public are invited to attend the services at 9 a. m. in Clewiston and at 11:15 a. m. in Pahokee.

Halloween Eve brought out some strange collections of characters ranging from Arabian dancing girls and robots to the long necked giraffe and mermaids gathered at the PTA sponsored school Halloween carnival on home parade.

## Teachers To Get Salary Increase

County school teachers should be relieved this week due to the favorable millage vote Tuesday which assured them of a \$500 salary increase.

Voters overwhelmingly approved a six mills maintenance levy by a vote of 4,705, according to figures released by County Registrar Dewitt Uphoff.

With the exception of Lake Harbor, all precincts turned in heavy votes favoring the maintenance millage. There 24 residents cast votes, four in favor of the six mills and five seeking other millage. The two mill levy lost by a vote of 7 to 12.

Of the approximately 20,000 persons in the county eligible to vote in the election only about 5,500 cast ballots, Uphoff reported.

Center of interest was the proposed teachers' pay boost which is provided in the six-mills maintenance tax. The School Board has allocated three cents to the teachers' pay increase.

Henry O. Earwood, without opposition was elected school trustee for the section west of Twenty Mile Bend with 2,533 votes. Others elected were James Norcross, east of Twenty Mile Bend and south of Palm Beach Canal and Roy E. Michael, Jr., east of the Twenty Mile Bend and south of the Palm Beach Canal.

Write in votes were recorded for John W. Turrett, C. Y. Byrd, A. Curry and Tom Richards.

Halloween Eve brought out some strange collections of characters ranging from Arabian dancing girls and robots to the long necked giraffe and mermaids gathered at the PTA sponsored school Halloween carnival on home parade.

## VFW SCHEDULES POPPY SALE HERE TOMORROW

A Poppy Sale held under the auspices of the V.F.W. Post 8181 and the Ladies' Auxiliary will take place tomorrow in the business district of the city. These poppies are made by the disabled veterans and the money obtained from the sale will be used for aiding the disabled veterans both in the hospitals and private homes. It is hoped the public will respond liberally for such a worthy purpose.

The sales staff will consist of six girls and a bonus will be given to the one collecting the greatest amount of money.

LEGION CONCENTRATES  
ON MEMBERSHIP DRIVE

The membership committee of Everglades Legion Post 20 reported on the current drive which ends November 24 at the regular meeting Tuesday night in the Legion Hall.

Goal of the drive is to increase the membership above last year's total.

A Halloween carnival booth committee reported stated that proceeds were \$34.58. Local merchants donated the prizes for the concession.

Legionnaire W. C. Young reported on the national convention in Miami stating that it was orderly and disposed to serious business.

Commander Jack Rashley suggested that the Legion and auxiliary have a joint pot luck supper and meeting Nick Puff was appointed to contact the auxiliary and make arrangements.

Members approved the request of transfer from the Philadelphia, Pa. post to the local post of Hyman Harman.

James McMillan, former resident, was a visitor and reported on activities of his present post in Alabama.

## LOCAL ORGANIZATIONS INVITED TO SPONSOR GLADIOLI QUEEN ENTRY

Civic organizations here have been invited to sponsor candidates for the title of Gladioli Queen, according to an announcement by Eugene Pfeiffer, Delray Beach, chairman of the queen contest committee.

The Gladioli Queen will reign over week-long festivities of the sixth annual South Florida Gladioli Festival to be held in Delray Beach February 18-23.

Eligible for the contest will be girls between the ages of 14 and 24 who are sponsored by civic, service or fraternal organizations of their community. More than one entry from a community is permitted.

Pfeiffer said, provided each entry is sponsored. Deadline for entrance in the contest is January 19.

Selection and crowning of the Gladioli Queen will take place at a coronation ball to be held on January 26 at the festival grounds in Delray Beach.

The annual festival, which attracted more than 35,000 people last year, is presented for the purpose of publicizing the benefits of living, working and investing in South Florida, according to by-laws of the non-profit South Florida Gladioli Festival Association.

Floral, agricultural, livestock, commercial and special exhibits are presented as well as a wide variety of entertainment area. The festival opens each year with a mammoth parade of floats, floats, marching and twirling units, bands and drum corps.

Rams Prepare For  
Trojans; Defeat  
Key West Conchs

The Rams will encounter a team with well developed running and passing attack on Saturday night at 8:15 on Memorial Field when they play the Lake Worth Trojans.

In an effort to match the Trojans, the Rams have dedicated practices this week to smoothing their offensive as well as strengthening their defensive line, according to Coach Doug Leavitt.

The Rams have a record of three wins and four losses to date, and the Trojans boast a score of four wins and three losses.

Staving off determined efforts on two occasions by Key West, both on the one-yard line, the Rams held the Conchs scoreless here last Friday night.

Packed stands watched the Rams take over on downs on the Conchs' 30. Seven plays later Fullback Joe Revel went off right guard to score. In the fourth quarter, Coach Leavitt kicked the point.

In the fourth, starting on the 45, the Rams scored with a wild pitch crashing the last 3. He also scored the final touchdown after Revel intercepted a Key West Pass on their own 18. Kenney Kirkham took the ball to the 7 to set up the Caldwell play.

PAHOKEE LEGION TO  
SPONSOR TURKEY SHOOT

The Pahokee American Legion Post will hold a Turkey Shoot Monday through Thursday mornings, according to a post spokesman.

He stated that there will be something unusual in the way of prizes and that more emphasis will be placed on marksmanship than at previous events.

Turkeys will be presented in time for Thanksgiving dinner.

LOOKS as though we did all right before we had a department, why do we need one now? The department officials point out that the public can get along without anything including a publicly supported police, fire and police departments, but that the health department, as other public agencies, fills a need toward government and adds toward a more satisfactory life for those within its program.

Florida people are healthy unless disease strikes them. In 1950 86 infants under one year of age died in the county, 25 people died of tuberculosis, 13 of syphilis and 14 of cancer. Many cases of preventable communicable diseases have come to the attention of the health department.

## Construction On School To Begin Within Ten Days

Hillier and Sons Get Contract  
For Construction  
Of New Plant

Concluding a lengthy program of combined efforts for the necessary site allocation for the proposed new high school building here, an announcement Wednesday stated that construction is slated to begin in approximately ten days.

A \$360,143 contract for construction of the new plant awarded Don Hillier and Sons, Pahokee contractors, at a meeting of the county school board Tuesday, Edg. S. Wortman, Lake Worth, is the architect.

Wortman submitted plans for the free-wing modern building last spring which were approved by the county and state boards of education last June. At that time work was tentatively scheduled to begin Aug. 1, but the lack of necessary material allocations held up the program.

When the new school is completed, the existing elementary school will move into the vacant old high school building, according to Mrs. Ruth Wedgwood, Timmon, local school board member.

To be modern in every respect, the new school building only partly completed at this time, is designed on the functional plan to offer the newest in lighting, ventilation and acoustical effects.

The plans show three wings connected by open single level corridors. Only the first two wings will be constructed in this present program, according to the architect.

The structure will be of fire proof concrete block roof and floor construction with acoustical ceilings. Main lighting for all standard classrooms will be from the north. Cross ventilation will be provided in glass windows on one side and clear story windows on the other. Green paint will compose the glazings blackboards.

Included in the front wing will be the home economics department divided into a food preparation room, sewing room and multi-purpose room; administrative offices.

Continued on page 4

## BAPTISTS TO OBSERVE JEWEL FELLOWSHIP WEEK

The First Baptist Church will join with thousands of Baptist churches in observing Jewish Fellowship Week Nov. 5-11, according to Wade H. Griffin, pastor.

The church is inviting Jewish people to the community to attend the Sunday morning service to strengthen the friendship with Jewish people in the community.

## HAROLD RABIN SPEAKS AT LIONS CLUB MEET

Harold Rabin was guest speaker at the regular luncheon meeting of the Lions Club Wednesday noon in the Legion Hall.

He spoke on the evolution of the bean field here. Doug Wooten was program chairman.

## PAR-TEE LINE

The Community Youth Center is again sponsoring the Par-TEE line. The Par-TEE line is a series of parties given Friday night and will last until midnight at the Municipal Country Club, according to Joe Pro Ziemann.

The program last Friday was a great success. Ziemann, who was the host, had 25 people in attendance. The program was a success and was well received by the guests.

Local lady golfers will be hostesses to the Lake Worth team today for a match play in the league tournament.

## News of Glades Boys And Girls In The Service

TONKAS, Alaska, serving with the Air Police, is finding life in that great Northern country a sharp contrast to his native Florida.

Don was born in South Bay and had not been out of the state before entering service.

Records of the State of Alaska on his 21st birthday, last January 12. In letters home he has mentioned that from the base he can see Mt. McKinley, the highest mountain in Alaska. The China River near his base affords swimming for the service men. Picnics in the mountains are a frequent pleasure.

Dances are sponsored weekly at the base by the YMCA who also send hostesses to the outposts to entertain the boys.

It is still summertime in Alaska. (Continued on Page 4)

## County Health Department Prevents Disease and Death In Glades Area

(Editor's note: This is the second in a series of articles explaining the scope and purposes of the County Health Department with particular emphasis on its Glades program.)

Do you know the State of Health Department, which services reach into Glades area, has prevented disease and death?

Records of the department reveal the fact that many people have died in the county directly over their heads.

Florida people are healthy unless disease strikes them. In 1950 86 infants under one year of age died in the county, 25 people died of tuberculosis, 13 of syphilis and 14 of cancer. Many cases of preventable communicable diseases have come to the attention of the health department.

Established in 1940, the department has fostered a program dealing with public health engineering, veterinary medicine and the health of the people through its trained staff.

People sometimes ask, "What is the health department doing for me?" The health department is doing for you by preventing disease and death.

# R. THOMPSON, COMMUNIST WANTED BY THE FBI

ROBERT GEORGE THOMPSON

Alert citizens and law enforcement agencies throughout the nation have been requested by the FBI to assist in locating Robert George Thompson, one of the convicted Communist Party leaders who are now fugitives from justice. A description of Thompson is as follows:

Age, 36, born June 21, 1915, at Grants Pass, Oregon; height, 5' 9 1/4"; weight, 170 pounds; eyes, dark brown; hair, brown, thick, straight; complexion, tan; build, muscular; race, white; nationality, American; scars and marks, bullet wound

left knee, appendectomy. His complexion is sallow and he walks with a slight hop or limp from the wound in his left knee. In the past he has driven a 1948 green Chrysler four door sedan, New York license 4C58-74.

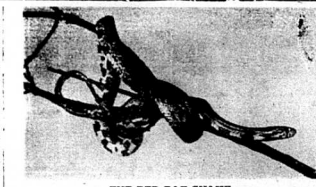

He has worked as a machine operator in a linoleum factory in California and as a laborer in a cannery. He has also worked at wheat harvesting and lumbering in Oregon. He speaks slowly and usually carries a briefcase.

Thompson was convicted on October 14, 1949, for violation of the Smith Act and was sentenced to three years' imprisonment and a \$10,000 fine. A bench warrant was issued for his arrest on July 2, 1951, when he failed to appear in Federal Court for commitment to prison.

Any person having information which may assist in locating Thompson is requested to immediately notify the nearest FBI office. The phone number will appear on the first page of the phone book.

## MARINES FIGHT FIRE WITH FIRE IN KOREA

The word "presento" used by Red soldiers in Korea and presumed by the Marines to mean "present," recently backfired on the occupant of an enemy bunker. It happened

THE RED RAT SNAKE

The red rat snake, also called corn snake, is common in the Southeast. It reaches a length of 8 feet, and is brightly marked with reddish blotches. Harmless to man, it is of great worth economically, for it feeds almost entirely upon mice and young rats. It is often found about barns, corn cribs, and farm buildings, as well as in the woods.

as a Marine fire team approached the bunker and saw an extended hand holding an enemy hand grenade—and with the hand came the word "presento"—the nearest member of the fire team obliged with "thanks"—and a string of "American grenades with the pins pulled. "Presento for you too, bub," the battle-hardened Leathernecks muttered as the grenades exploded.

## Entomologists Work On Fla.'s Mosquito Problem

Entomologists with the Florida State Board of Health have

They transferred an estimated three million mosquito larvae from a small salt marsh to special vats containing radioactive phosphorus. The rays were not powerful enough to damage the larvae, but strong enough to leave a radioactive trace on the insects.

In a few days, radioactive mosquitoes literally erupted out of the vats. They flew away and dispersed just as they would have from their native salt marsh.

For the next 30 days entomologists manned collecting stations which trapped the mosquitoes. Millions of the "nuisance" insects were snared in the area within 20 miles of the breeding vats.

Each of these collections were passed before radiation detectors in the lot. Since the birth-spotted any radioactive mosquitoes in the lot. Since the birth-spotted any radioactive mosquitoes in the lot. Since the birth-spotted any radioactive mosquitoes in the lot.

## Three Counties Exceed Freedom Crusade Quotas

Harold Cole, Florida State Chairman of the 1951 Crusade for Freedom campaign, recently announced that three counties of the state have already report-

ed contributions in excess of their quota. The first to report they had gone over the top was Dixie County, followed by Lee and Hendry Counties.

Cole has announced that "our organization set-up, State-wide, is most complete, and we have had an excellent response in our 'nickel and dime' contribution." He added that the State headquarters is anxious to receive complete reports from the various county

While this use of radioactive isotopes is relatively new, Mulrennan added, mosquito flight studies are not. Various dyes and darts have been used on different kinds of mosquitoes in virtually all parts of the world. On the basis of these past researches, coupled with the knowledge they have acquired, State Board of Health biologists claim that no other mosquito species in the world has yet been proven to rival Florida's salt-marsh mosquitoes in "distance and speed of dispersion from breeding areas."

"The experiment shed light on things vital to mosquito control," says Mulrennan. "It helps to tell us how long salt-marsh mosquitoes live, how far and when they migrate. The 'why' of migration is still a mystery. The experiment also yielded information on the effect of winds, light, water barriers and

ed contributions in excess of their quota. The first to report they had gone over the top was Dixie County, followed by Lee and Hendry Counties.

ASSOCIATION

**Bewildered Local Taxpayer**  
Mr. Belle Glade taxpayer, review your tax receipts and wonder about your obligations in compliance with the various tax projects, which require the support of various taxing bodies. The confusion and confusion grows worse in your mind by the comparison.

Last winter and spring the chamber of commerce ambitiously undertook the promotion of two community projects which would be of tremendous value to this section if realized. Added together in one grand total, the two projects would be a port and dock facility and improvement of the local airport—would involve support from municipal, county, state and federal agencies.

In a boom of promises from these agencies, surprisingly rapid advances were made on the projects only to be halted and seemingly forgotten during the long hot summer. But the Belle Glade taxpayer's outcry was not without the sultry heat. For instance, the port; an active local delegation, after some negotiations, received an option on the island lying south of Turkey Island from the Internal Improvement Trusts. Then negotiations started with the Port Authority which made several week promises including the drawing of plans early this summer. But even this it has replaced with more pressing work on the Palm Beach Port. The fact of the matter is that taxpayers of this area have paid to the Authority for 35 years. In 1916 the authority key was known as inlet tax, according to Jan Bon Neplus, Oklaehama pioneer who recently checked tax records on a ten acre piece of property. The most recent letter sent by the chamber of commerce seeking information from the authority was ignored.

Also the Belle Glade tax payer can not but wonder what was to be the fate of the cooperative airport improvement program which was to have been born of city, county and federal funds. At a special meeting in the city hall in May attended by Harold A. Wilde, district airport engineer; Paul Hardin, chairman of the county commission; city commissioners and chamber of commerce directors, the city and county agreed to furnish \$7500 in money and services, and Wilde said he believed he could speak for a federal aid grant of \$15,000. This was to have come through last June. It was also agreed that the county would have charge of the paper work. But to date no activities on the airport have been started and no beginning date has been forecast.

**C OF C DIRECTORS**  
(Continued from page 1)  
Communicate with the Authority to determine its plans. If the reply is unsatisfactory, the chamber of commerce directors will form a local committee to meet with the port board. Mrs. George C. Young was authorized to write a letter to the Authority asking it to join the committee as a member in the event strong action should be taken by the directors also planned to call all local civic clubs asking them to choose a representative for the delegation.

The Belle Glade Interlocal Council presented a resolution at the meeting for action by the chamber. According to the resolution, the city ordinance permitting liquor establishments to be open all week with the exception of six hours is creating a dangerous situation. By choice white establishments close at night whereas the colored businesses remain open. The resolution maintains that white patronage is going into the colored section at night. Advancing closing hours for all establishments, the resolution states, that the situation causes, "Unhealthy conditions and abuses which cannot be handled entirely by police action and presents an imminent threat to the present good relationship between races here and jeopardizes valuable investments in the city."

Chamber directors discussed favorable and adverse views on the proposed action and the resolution until a later meeting when a larger representation of the directorship would be present. Directors approved the suggestion of Henry Earwood that the chamber contain informational material on the city memorandum and given to the Welcome Wagon and the Lions Club. Douglas Woodson is chairman of the city ordinance permitting liquor establishments to be open all week with the exception of six hours is creating a dangerous situation. By choice white establishments close at night whereas the colored businesses remain open. The resolution maintains that white patronage is going into the colored section at night. Advancing closing hours for all establishments, the resolution states, that the situation causes, "Unhealthy conditions and abuses which cannot be handled entirely by police action and presents an imminent threat to the present good relationship between races here and jeopardizes valuable investments in the city."

From where I sit... by Joe Marsh  
"Talks Turkey"  
—Long Distance

Some people chuckled when they heard a home recording machine to record the noise of trucks. They said, "I told them, 'My turkey goes for themselves—listen to this noise!' They said, 'You're going to play it for them?'" "They're going to play it for the loud speakers in their place and then an announcer on another record outside the club."

Two INJURED IN SIX MILE BEND ACCIDENT

The season is starting, and the accident toll at Six Mile Bend begins to mount. Two persons received slight injuries when their car, eastward bound, failed to make the curve at the bridge, hit the right hand railing, veered to the left and plunged into the canal. The accident occurred about 10:40 a. m. Friday, according to Highway Patrolman Valton Sheffield, investigating officer.

Driver of the car, Mrs. Jack S. Wincant, 50 814 N. St. Lake Worth, was treated for shock and bruised chest at the Belle Glade Memorial Hospital. Her husband, T. J., who was a passenger, was released from the hospital after treatments for abrasions of the body.

Sheffield reported that a semi-trailer and a bus turned over at the bend last month. A question—What is the greatest commandment God ever gave to men? Answer—Matthew 22:38-39: "Matter, which is the great commandment in the law? Jesus said unto him, Hear, O Israel: The Lord thy God with all thy heart, and with all thy soul, and with all thy mind. This is the first and great commandment."

**BANKING TEXT BOOK AVAILABLE TO SCHOOLS**  
A new banking text has been made available for use in all high schools in the county. It is an announcement made recently by J. E. Bryan, President of the Florida Bankers Association and President United States of Commerce, St. Petersburg. The announcement coincided with the distribution of the publication titled "Our Banks and What They Mean to Us" to all high school principals by Superintendent of Public Instruction Thomas D. Bailey who stated that the book had been designed to be used in the field of mathematics, business education or social studies in the junior or senior high schools. The book is a collection of articles by teachers, business education faculties, social studies groups and librarians will be interested in its contents.

Developed and produced cooperatively by the 1950 and 1951 Public Relations Committees of the Florida Bankers Association, the State Department of Education, the Tallahassee high school teachers, and the College of Education at the University of Florida, the text supplies a long felt need among teachers and students for some authentic and practical treatment of the bank and banking services fit into the daily life of every individual.

Mr. Bryan pointed out that every bank in the state also is being sent a copy of the publication and is being urged to find out what can be done to supplement the teachers' task of presentation by supplying various forms to "classwork," by offering to explain certain phases of bank operations, or by offering to have classes tour their local banks. He stated, "Our job as bankers is to lend the utmost encouragement and support to principals and teachers in the presentation of the material contained in the booklet."

**GLADYS SMITH CIRCLE HOLDS NOVEMBER MEET**

The Gladys Smith Circle of the First Baptist church met at the home of Mrs. B. Q. Waddell for its November meeting, Tuesday night.

The program "Whither Asia" was in charge of Mrs. Jack Whitcomb. A book review "Pilgrimage to Spain" was given by Mrs. William Thibault.

Plans were discussed for the Nov. 22nd gathering which will honor Miss Mary Catherine Adams, and Mrs. Marvin Unwin, Mrs. J. H. Chambliss.

## LEGAT &amp; CLUBS

# QUESTION OF SEINING IN LAKE STILL UNSETTLED

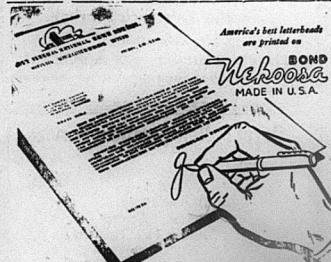

Final disposition of commercial seining in Florida's fresh waters was left unsettled Oct. 29 as the State Game and Fresh Water Fish Commission decided to postpone any action until a fifth commissioner was named by Governor Fuller Warren, announced Chairman Louis G. Morris, of Monticello. Postponement was approved 3 to 1 after Cecil Webb, of Tampa, moved that a resolution be passed that the people in the area concerned should have representation on the commission when such an important issue was discussed.

A recommendation that commercial fishing be resumed in the above waters had been made by the Commission's chief fisheries biologist, John F. Dequine. The report was prepared which halted all seining on these three waterways.

A large number of commercial and sports fishermen were present during the meeting to participate in anticipated discussion of the controversial issue. Many sports fishing organizations oppose any resumption of commercial fishing in the State's fresh waters.

Webb said his point in tabling the resolution was that he believed that the people in the area concerned should have representation on the commission when such an important issue was discussed.

A recommendation that commercial fishing be resumed in the above waters had been made by the Commission's chief fisheries biologist, John F. Dequine. The report was prepared which halted all seining on these three waterways.

## What a whale of a difference D-D MAKES!

## A single soil treatment with D-D did this:

**LAST YEAR . . .** operators of American Fruit Growers Farm in Sanford suspected that nematodes were the cause of their poor celery crop.

**THIS YEAR . . .** they ran D-D test to find out. One part of the field was treated with D-D . . . the rest untreated. Both sections were then planted and cultivated alike. Just before the picture was taken, U.S.A. nematologists found heavy infestations of both sting and stubby root nematodes in the untreated soil. (These nematodes are so detrimental to plant growth as the root knot variety . . . causing brown discolored root systems and burned-off root tips.)

**CONCLUSION . . .** nematodes were the cause of the scraggly crop and . . .

## D-D KILLS NEMATODES!

D-D, injected into the soil before planting, kills your larvae of nematodes and . . . allows plants to develop healthy, wide-ranging root systems and sturdy plant structure that means a profitable crop. Use of D-D reduces fertilizer requirements by about one-quarter without sacrificing growth.

D-D is easily applied and economical to use. Its cost is recovered many times over in increased yields and profits. We have trained crews and equipment available to treat your soil at low cost per acre . . . or we'll be glad to show you how to do the job with your own tractor.

Call or write us for full particulars.

## SEERING TO FEATURE CHAMPIONSHIP RODEO

A "Way Down West in Florida" championship rodeo by the Bronze Saddle Club will highlight Highlands County's 30th Birthday Celebration in Sebring, November 10, 11, and 12. Sebring Chamber of Commerce officials announced this week.

Beginning Saturday November 10, Highlands County will honor her "Old Timers" with a "Remembrance When" program beginning at 2 P. M. at the Chamber of Commerce building. An "old timer" is any person having lived in the County prior to 1925—or 25 years ago.

The Bronze Saddle Club presents their first performance Sunday afternoon, November 11, at 2 P. M.

Monday morning at 10 A. M. State, County, and City officials will lead the huge downtown parade with bands, floats, marching units and cowboys and cowgirls.

An Armistice Day Program in charge of the local American Legion Post will be held at the Municipal Pier at 11 o'clock followed by an address by the Honorable Robert A. Gray, Secretary of State.

Monday afternoon the final rodeo performance will be presented. There will be a dance Monday evening.

## VETERANS INFORMATION AND SERVICE

Here is a veteran's benefit which is not known to most veterans.

Certain disabled veterans, or a designated member of their families, are eligible to make purchases in commissary stores operated by the military and naval services.

# form which is available at any local service camp, post, or station.

A permit card, bearing the same number as the veteran's will then be issued and the agent is required to sign it for identification purposes.

## H. WINSTON, COMMUNIST WANTED BY THE FBI

Commander Eric Watson, of New Smyrna Beach, for assistance in acquiring the Farmington Wildlife Management Area in Volusia County, and for constructing several checking stations on this tract for controlled public hunting season.

Tabled action on removal of traps and baskets from waters of the Third District, on taking off the protected list, on closing Pasco County to taking deer and turkey and closing of the Rock Spring Creek and Little Wekiva River for use as a Game Refuge.

Refused to open a portion of Orange County Breeding grounds now closed to the taking of deer.

Cecil M. Webb, commissioner from the First District, asked the other commissioners to consider inviting professional dog trainers to the State, permitting them to start training dogs on September 1 on private lands and allowing them to buy quail with permission to kill these quail during the field trials. No action was taken.

# Regulations Are Set On Controlled Hunting Areas

Regulations for controlled public hunting on seven wildlife management areas throughout Florida were approved by the State Game and Fresh Water Fish Commission Oct. 29. O. Earl Fry, chief biologist for the group, reported today.

Sportsmen may enter any of all controlled deer and turkey hunts by purchasing special 55 hunting stamps in addition to their regular license.

Season and rules governing the managed hunts are: Thursday, Nov. 29 to Dec. 30, first six days open, Wednesday, Thursday, Saturday and Sunday open; Friday closed thereafter; all legal game open.

Collier, Nov. 29 to Dec. 30, first six days open, Monday, Tuesday and Friday closed thereafter; all legal game open; legal game open, Monday, Tuesday and Friday closed thereafter; all legal game open.

Indian Trail, Nov. 29 to Dec. 30, first six days open, Monday, Tuesday and Friday closed thereafter; all legal game open; legal game open, Monday, Tuesday and Friday closed thereafter; all legal game open.

In addition to the above, the Commission approved shooting of turkeys in Avon Park week-end hunts. Previously, turkeys were protected, but military of turkeys have been in the grounds in Edin Field will also be opened to hunters this year.

## Florida Enjoys \$160 Million In Tourist Trade

Floridians cashed in approximately \$160 million from summer tourist business this year, the Florida State Chamber of Commerce reported recently.

During the months of June, July and August an estimated 200,000 visitors, seeking recreation, came to the State. This was something like 20 per cent above the 1950 summer business in both number of visitors and money spent by them.

An analysis of Florida's summer tourism is shown in this week's business review of the State Chamber's research and industrial division. Although such type of transportation showed an increased number of visitors this past summer, the family car was by far the most popular. Seventy-one per cent (852,000) of the total number of visitors to Florida during June, July and August came by private passenger car.

Trains brought 12 per cent (144,000), 10 per cent (120,000) flew in by plane. The balance, 2 per cent (24,000), came by a combination of the different types of transportation.

These percentages are for the summer business only as the use of all types of public transportation is heavier, in relation to the private car, in winter than in summer.

# weather," said Dr. J. D. Williams, Kemper medical director.

With a repetition possible for Florida, Dr. Williams urged residents to avoid undue fatigue, eat properly prepared foods and practice clean living habits.

He also advised that medical attention be sought as soon as symptoms appear since early diagnosis may help speed recovery. Symptoms include headache, nausea, vomiting, nasal voice, stiff neck, general stiffness and difficulty in swallowing.

## THREES AVAILABLE TO SCHOOLS FOR ARBOR DAY

Schools may again obtain three pure seedlings from the Florida Forest Service for Arbor Day plantings in January, according to State Forester C. H. Coulter.

Seedlings have been given away several years by the state to schools for Arbor Day programs as part of its program in stimulating public interest in forest plantings.

Arbor Day this year, as every year, falls on the third Friday in January. Thus Arbor Day this year will be on January 18.

Because the supply of pine seedlings is extremely limited this year, Coulter suggested that all schools wanting seedlings should make their requests at an early date.

## PUREBRED GUERNSEY AND JERSEY CATTLE SALES SLATED SOON

Three purebred dairy cattle sales have been scheduled in Florida during the first two weeks in November by the State Jersey and Guernsey cattle clubs.

Forty head of purebred Jersey females and three young females and three young males have been scheduled in Florida during the first two weeks in November by the State Jersey and Guernsey cattle clubs.

The study was based on insurance company reports and figures supplied by the National Foundation for Infantile Paralysis and public health services.

It disclosed that Florida's polo season—the period during which 80 per cent of the cases were reported—ran from March 25 through December 2, and was one of the longest nationally.

All other states except Arizona, Minnesota and South Dakota reached their peaks earlier in the year.

# bulbs will be for sale at the State Livestock Pavilion in Bartow November 8. The females will include fresh and springing cows and bred and open heifers.

On the evening before the sale, November 5, members of the Florida Jersey Cattle Club will hold their annual meeting and banquet.

Florida's East Coast Guernsey sales will be held at the State Livestock Pavilion in Bartow November 8. The females will include fresh and springing cows and bred and open heifers.

C. W. Reeves, dairyman with the State Agricultural Extension Service, says dairy cattle for the sales will be selected from the best herds in Florida and other Southeastern states.

## URANIUM SEARCH IS BROUGHT TO FLORIDA

This world-wide search for uranium has come to Florida and will be pursued with all the skill and learning of science at a new \$10,000,000 phosphate plant, on which construction has been started near here by International Minerals and Chemical Corporation.

There are few details, as work gets underway on the huge plant for which 27 acres of ground has been cleared at Bonita, three miles south of the Bartow-Mulberry highway. Few people know much about the search of uranium, and those who know most don't talk.

The plant will produce dephosphatized phosphate, which is used for animal feed manufacture, and multiple superphosphate for the chemical fertilizer industry. The recovery of uranium compounds will be an additional step in these processes.

**South Bay school Tuesday evening**

The evening started with a spaghetti supper served in the school cafeteria by members of the Parent-Teachers Association.

The costume parade was the first event of the evening. Prizes were awarded in several age groups: Pre-school, Doris Willis, Theresa Wilder, Ivan Willis, Barbara Davis, First, second and third grades, Ginger Crichtfield, Elaine Prevatt, Skipper Paeck, Richard Herring, Fourth and fifth grade, Rebecca Woodhams Sandra Willis, Charles Ray Purcell, Jim Challancin, Sixth, seventh and eighth grades, Ronnie Bowen, Marsha Walker, Bobby Willis, Delton Alford.

The grand draw prize, a B B Gun, went to Charles Ray Purcell. Second draw prize, a doll, was awarded to Dorcas Willis.

There was a fortune teller's booth adorned with a huge spider and spider's web, witches and goblins, cike walk, country store, pony rides, fish pond, snack booth and Dutch auction.

Approximately \$450 was realized. This will be added to the general fund of the Parent-Teachers Association to carry on their program for the year.

**GOV. WARREN ANNOUNCES SCHEDULE OF 3RD WEEK OF CO. BY CO. TALKS**

With one full week of speaking behind him, Governor Warren recently announced the itinerary of the third week of his county-by-county tour which newspapers have variously labeled as a "mission of truth" and as a "give 'em hell" campaign.

Newspapermen who followed Warren on his first week's rugged schedule are undecided as to which label is the more appropriate. All are agreed, however, that Warren's "non-political" tour is attracting unexpectedly large crowds. They're mostly enthusiastic.

So far, "give 'em hell" speeches have been heard only twice. The first time was at Tampa, on last Monday night, when he lambasted the Tampa Tribune as a "foreign-owned organ of falsification." The second time was tonight, in Miami, when he tore into both Miami daily papers.

Warren branded John S. Knight, editor and publisher of the Miami Herald, as a Republican puppet-bugger seeking to gain political domination of the state. Warren dismissed Daniel J. Mahoney, general manager of the Miami Daily News, with the sarcastic tag of "Tagalong Mahoney."

He declared that both Knight and Mahoney have suppressed and concealed news favorable to the Warren administration. "I leveled the same charge at the Tampa Tribune," which retaliated with a front-page editorial of spluttering denial.

As for the other 40 daily and 183 weekly newspapers in Florida, Governor Warren has given them a clean bill of health, saying that most of them report the news honestly and fairly. On several instances during the past week, Warren has paid tribute to individual newspaper editors and reporters.

**DR. C. L. BRUMBACK SPEAKS AT PTA MEET**

Dr. C. L. Brumback was the chief speaker at the South Bay Parent-Teachers Association meeting Monday evening at the school auditorium.

He discussed health problems and proper instruction and treatment for handicapped children.

Patrolman Valton Sheffield made an interesting and informative talk on highway safety and how they can be prevented. His talk was followed by a round table discussion in the form of questions and answers.

President Frank B. Willis presided over the business session during which a report on the carnival was heard. Treasurer O. H. Martin reported a net amount of \$521 to add to the general fund.

It was voted to allocate a part of the carnival fund and 25% of all receipts from suppers and food sales to the cafeteria.

The first grade taught by Mrs. Edythe Eckman received the attendance prize.

Chief White reported on the purchase of boy patrol caps for the school patrol boys, and it was agreed to pay the balance due on this purchase.

Coffee and doughnuts were served by the hostess committee.

**A-H CLUB GIVES SKIT OF GROUP'S PROGRAM**

The South Bay 4-H Club presented the program at the Warren's Home Demonstration Club last week, consisting of an original skit depicting various phases of 4-H Club work.

**FARM BUREAU PRESIDENT TO ADDRESS FARMERS**

The eyes of 46 State Farm Bureaus will be on Florida next week. Their national president, Allan B. Kline of Iowa, will address Florida farmers in Orlando Thursday, November 15 at 11 o'clock.

"Just a few years ago our state organization wasn't large enough to warrant a visit from our national president," declared Loring Raul, state Farm Bureau president in Sarasota last week. "Today it's different. We're bigger than the Farm Bureaus in Arizona, Colorado, Connecticut, Delaware, Maryland, Massachusetts, Montana, Nebraska, Nevada, New Hampshire, New Mexico, South Dakota, Utah, Virginia and Wyoming."

Furthermore Florida is in the same membership bracket with Idaho, Louisiana, New Jersey, North Dakota, South Carolina, Vermont and West Virginia," he said.

**MORE EFFORTS NEEDED FOR FUTURE PROGRESS WITH FLORIDA CATTLE**

There are more pure bred bulls on Florida farms and ranches now than ever before, but there are still some scrubs that should be sent to market as soon as possible. "Like begets like, and a scrub will beget a scrub," said Dr. T. J. Cunha of the Florida Agricultural Experiment Station in urging cattlemen to use high quality pure bred bulls only in their herds.

The Experiment Station animal husbandman spoke high praise for Florida cattlemen for the notable progress they have made with their herds during the past 20 years, but he emphasized that most cattlemen recognize the importance of continuing and increasing their efforts for future satisfactory growth and development of the beef industry.

He pointed out that cattlemen have made significant improvement in their pastures, cattle, and management. "However," he declared, "we need much more improved pasture, we must continue to 'breed up' our cattle, we must produce more feed and we must feed more in winter, and we need to strive continually to improve the quality of our animals."

For future improvement of the state's beef cattle industry, the Experiment Station worker listed these points:

- Increase acreage of improved grasses, legumes, and other feed crops.
- Use enough winter feed supplements and mineral mixtures to keep animals from losing valuable weight during the months of sparse grazing.
- Use high quality purebred bulls only.
- Cull the herd closely. Replace the culls with superior animals.
- Spray to control pests that prevent stock from grazing normally, that take a toll in blood, and that spread disease in the herd.

Inspect the herd often to be sure the animals are faring well or to take prompt steps to correct any disease or other unfavorable condition that may develop.

Those are things, Dr. Cunha explained, that have enabled Florida cattlemen to make fine progress in the past two decades, and those are the things that will enable them to make more progress in the future.

**It has a Way with Women**

Sometimes we think that too little attention is given to the fair sex in automobile advertising.

After all, it's the woman of the house who has to do most of the shopping, which involves getting into tight places at the curb. And it's surprising what tight spots a Buick can fit into at a turn of the wheel.

It's the woman who likes complete freedom from things that takes an engineer to create and a complete understanding of complications is exactly what makes Dynaflow Drive such a joy.

It's the woman who has an eye for style and fine fabrics—and a nose for economy. On both counts, a Buick is tops.

But we suspect something else. We suspect that a woman gets just as great a lift as a man from commanding this great-powered and trigger-quick bundle of vitality to bow to her will.

Here's a car to win any woman's heart—by its level-gaited stride—its willing response to her hand on the wheel—its smart style and its smart performance—its spaciousness and comfort—and its thrift.

How about taking time off, some afternoon, to boss around a Buick? It's a date that's bound to thrill you.
